

Poultry House Plans For 100 Chickens

- 🔥 Design Service: chicken cage layout design
- 🔥 Specifications: H type 8 × 4 × 3 m, 100-110 chickens; A type 7 × 3.5 × 2.8 m, 100 chickens

Details Of Poultry House Plans For 100 Chickens

The design of 100 chickens is mainly plans layout of **chicken cages** and the corresponding chicken-raising equipment. With the aim of economic efficiency, we have separately planned the layouts of the **A type chicken cage** and the **H type chicken cage**.

Layout Of H Type Chicken Cage

- ✓ Chicken cage model: H type chicken cage
- ✓ Number of chickens: 100-110

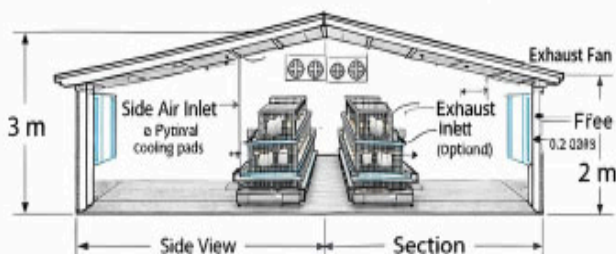

- ✓ Chicken cage size: 8 m (L) × 4 m (W) × 3 m (H)
- ✓ Each side H type chicken cage: 1.5 m wide
- ✓ Central passage: 1 m
- ✓ Tiers: 3

Cage System Configuration

- Each group of cages: 3 layers × approximately 16–18 birds per layer
- Automatic system:
 - Automatic feeding (both sides)
 - Automatic drinking
 - Automatic manure removal (optional)

feeding equipment

H type chicken cage is commonly 3-8 tiers, has a high space utilization rate (suitable for large-scale farming) and is easier to expand.

Layout Of A Type Chicken Cage

✓ Number of chickens: 100 bird

✓

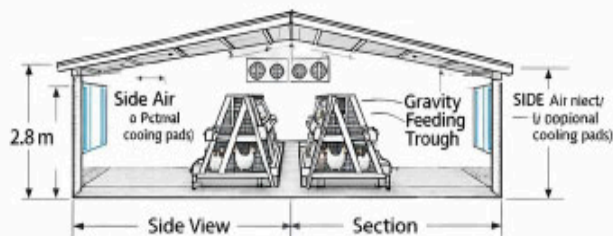

- ✓ Chicken cage size: 7 m (L) × 3.5 m (W) × 2.8 m (H)
- ✓ Width of Type A cage: 2-2.2 m
- ✓ Central passage: 0.8-1m
- ✓ Tiers: 2

Cage System Configuration

- Each side of cages: 50 on each side (100 in total on both sides)
- Automatic system:
 - Automatic feeding (both sides)
 - Automatic or semi-automatic drinking system
 - Egg collection system

feeding equipment

A type chicken cage has a simple structure and is easy to install. So investment is lower. It is suitable for a small-scale farm and an initial project.

Poultry Farm Design & Solution

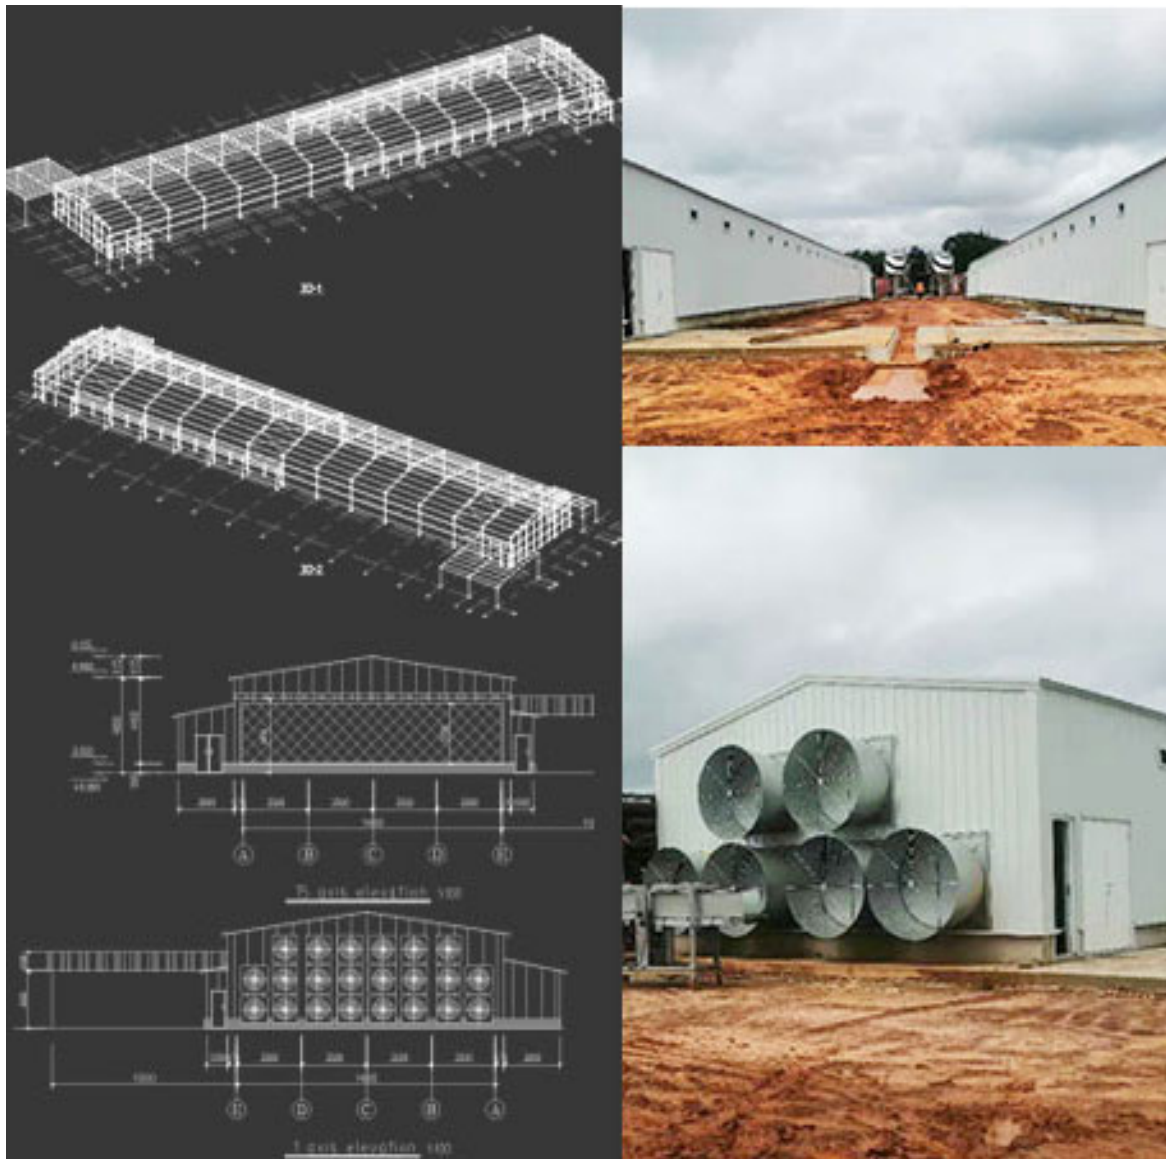

What We Can Offer

- Custom design
- Logistics distribution
- Installation service
- Guide & training

Why Choose AGICO GROUP

poultry house plans in India

poultry house plans in Ghana

Customization Capability

We customize the layout of chicken houses based on factors such as the land conditions of the customer, the number of chickens to be raised, and the type of chicken cages used.

production ability

We have a complete production line for chicken houses and auxiliary equipment, covering the entire process from design, manufacturing, quality inspection, to final delivery.

Rich Engineering Experience

Our engineering team has many years of experience in domestic and international chicken house construction. We not only provide design but also offer engineering services.

Good Service

The complete pre-sales and after-sales ensure a comprehensive and smooth purchasing experience for our poultry farming customers.
